2021 Maine KIDS COUNT Data Book

Presentation to:
Children’s Caucus
April 16th, 2021

by Maine Children’s Alliance

www.mekids.org
The Maine Children’s Alliance, MCA, is a nonpartisan, nonprofit that advocates for sound public policies and promotes best practices to improve the lives of Maine’s children youth and families.
COVID-19 Exacerbated Existing Inequities

In Maine, the impacts of the pandemic fell disproportionately on certain populations – people who have historically faced inequitable challenges due to race, poverty, disability, or geography.

In this data book, we have included disaggregated to expose these disparities.
Maine KIDS COUNT

• is part of the national KIDS COUNT Network, funded by the Annie E. Casey Foundation

• publishes the Maine KIDS COUNT Data Book every other year - Maine’s only comprehensive report of the health, economic and educational well-being of Maine children

• maintains up-to-date online interactive state and county data https://datacenter.kidscount.org
Impact of COVID-19 Crisis on Maine Children and Families

Child care:
• Approximately 66% of child care providers in Maine were not able to secure enough relief funding 2020 to cover lack of revenue and increased operating costs.
  [Maine+Child+Care+Survey+Results+July+2020.pdf]

Women out of the workforce:
• 57% of net job loss in Maine during the pandemic was among women (2020).
  [https://www.maine.gov/labor/cwri/cps.html]

Pre-kindergarten enrollment in Maine was down 23%.
Kindergarten was down 12%.

This was the lowest pre-kindergarten enrollment since 2014.

Impact of COVID-19 Crisis on Teen Mental Health in Maine

Maine teens were under stress even before the pandemic:

➢ 16% of Maine youth ages 12 -17 experienced a major depressive episode) Maine-BH-Barometer_2019

➢ 16% of 35,000 Maine high school students surveyed indicated that they had seriously considered attempting suicide in the last 12 months Maine Integrated Youth Survey 2019

More than one in four students feels much less connected to classmates, adults, and school than before

Maternal and Infant Health Equity: Infant mortality rate in Maine has declined since 2013

Source: KIDS COUNT 1 year infant mortality rate
Maternal and Infant Health Equity: Racial Disparities in Pre-Natal Care

Source: Prenatal Care in First Trimester 2019, Maine Department of Human Services, Office of Vital Statistics, No Prenatal Care until Third Trimester if at all, KIDS COUNT, births-to-women-receiving-late-or-no-prenatal-care-by-race 2019. Note that prenatal care among other races is not available because small numbers make the data uncertain.
Maternal and Infant Health Equity:

The number of babies born exposed/affected to substances rose in 2020 after 3 years of declines.

Babies born exposed/affected was as high as 1 in 7 infants in some counties.

Early Intervention and Special Education

Children ages 0 - 1

- Maine: 77 (0.6%)
- US: 1,010 (1.3%)

Children ages 0 - 3

- Maine: 2,397 (2.7%)
- US: 30,758 (3.5%)

Children ages 3 - 5

- Maine: 2,397 (6.0%)
- US: 30,758 (6.8%)

Children ages 6 - 21

- Maine: 30,758 (13.9%)
- US: 30,758 (9.5%)

*Rates for these graphs are calculated as a percent of all children, not all children enrolled in public schools. For the graph of ages 6 - 21, the denominator includes youth ages 18 - 21, even though most youth who do not have a disability have graduated by age 18. These graphs do not share the same scales.

Positive Trends for Teens
High School Graduation Rates Improve

Some students need more time to graduate, but can if given time

Source: Maine Department of Education, 2018-2019
Positive Trends for Teens

Juvenile arrests are down by 3,000 between 2012-2019

Young teen pregnancy (ages 10 -17) is down 80% since 2008

Juvenile incarcerations are down, too. from 318 incarcerated in December 1997, to 45 youth in December 2018 to 29 youth as of December 2020.

Source: Arrests--Maine Department of Public Safety
Source: Maine Department of Health and Human Services, Office of Data, Research and Vital Statistics; and posted to the Annie E. Casey Foundation, KIDS COUNT young-teen-pregnancy-
Other Positive Educational Trends:
Improvements in 4th grade reading proficiency
Statewide: from 51.7% in 2018 to 56.2% in 2019

Source: Maine Department of Education and Educate Maine, Analysis of statewide data from Maine Education Assessment (MEA), March 2019
*English Language Learners are not included.
Other positive trends

Maine continues to rank well compared to other states in Healthy Habits

Source: National Child Health Survey 2018-2019
Adolescent Health:
Alcohol, Marijuana, Vaping and Tobacco Use comparing 2017 to 2019

- Vaping use doubled
- Marijuana use trended up
- Alcohol use was steady
- Tobacco use was down

Source: CDC’s Youth Risk Behavior Surveillance System YRBS Maine 2019
Health care coverage
In 2018, Maine’s Rate of Uninsured Children Rose Above the National Rate

5.7% represents about 14,500 Maine children without health care coverage

Given parental unemployment and loss of employer-sponsored health insurance during the pandemic, it is likely more children have lost coverage during this crisis.

Source: Small Area Health Insurance Estimates (SAHIE), 2018
Between 2017 and 2019, there was a 38% increase in children experiencing maltreatment, from 3,292 to 4,547 children.

There were more children experiencing maltreatment in 2019, than any year in the past 10 years.

Between 2017 and 2019, there was a 52% increase in the number of children entering foster care from 820 children to 1,246 children.

Racial Disparities in Child Poverty

**Children of Color Experienced Higher Rates of Poverty in Maine and the Nation**

![Bar chart showing racial disparities in child poverty rates in Maine and the USA.](chart.png)

- **Black**: 46% (Maine), 33% (USA)
- **Native American**: 35% (Maine), 32% (USA)
- **Asian**: 24% (Maine), 27% (USA)
- **Two or more races**: 22% (Maine), 19% (USA)
- **Hispanic**: 14% (Maine), 17% (USA)
- **Non-Hispanic White**: 14% (Maine), 11% (USA)

*Source: MCA Analysis of U.S. Census Bureau’s American Community Survey five-year estimates (2015-2019). Tables B17000, & B17001A-I*
Housing

43,000 children in low-income households where housing costs exceed 30% of income.

On January 28, 2020, there were 250 Maine children in homeless shelters.
A Hypothetical Classroom of 25 first graders in Maine

Based on statewide rates of children of all ages, except child abuse is for children under age 6 and babies born drug exposed/affected is for births from 2013-2020.
